

HOW MUCH ARE YOU PAYING FOR PRINTED CIRCUITS?

Maybe it's more than you have to! Our new Standard Circuit Division reduces printed circuit manufacturing overhead to the barest minimum by automation and standardization. You can now buy printed circuits with your conductor pattern, your hole layout and your board outline...

**WITHOUT ARTWORK
WITHOUT QUOTATIONS
WITHOUT TOOL CHARGES
WITHOUT SET-UP CHARGES...**

and in most cases at half the usual cost and in half the usual delivery time — even for small-quantity orders. To find out how Standard Circuits can save you money, fill out the quote sheet below, clip it to your company letterhead and send it for a free quotation to:

STANDARD CIRCUIT DIVISION
Photocircuits of California
2211 Howell Avenue
Anaheim, California
